## FOREWORD

---

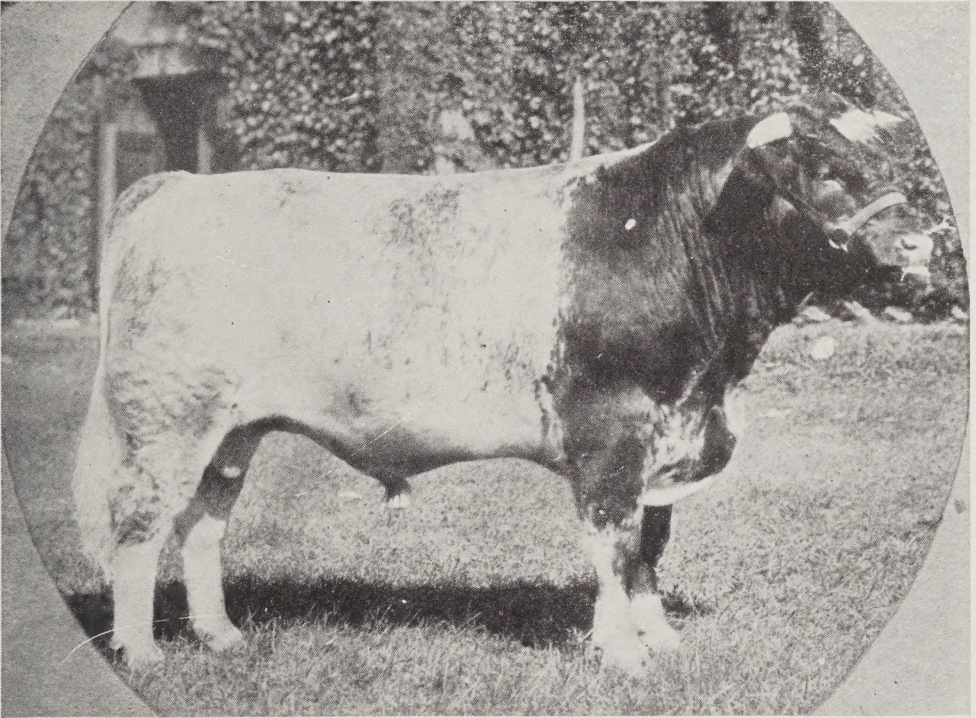

The pedigrees in this catalog speak for themselves. They are all Scotch and they represent the most popular families. I have taken great pains in selecting the cattle for this sale with a view to presenting one of the choice offerings of Scotch Shorthorns of the year. There is not a cull or "knothead" in the lot. In addition to their own merit, the value of these cows and heifers is greatly enhanced by virtue of the fact that they are mated with or have calves at side by bulls of unquestioned merit and wide reputation. Few herds in America have herd bulls that are the equal or superior of those in use at the Superb Farms. I suggest that you study their photos and pedigrees which appear in the first pages of this catalog.

Every cow that does not show in calf on sale day will have been examined by a veterinarian to ascertain whether or not she is carrying a calf. It is possible to definitely determine pregnancy from six to eight weeks after service. Except, therefore, for the few cows that may be bred within that time before the sale there will be absolute certainty that they are all carrying calves.

I have a number of other good Scotch females at the farm, and if you fail to secure what you wish in the circuit I will be glad to have you come out later and make such selections as you may desire.
